Caution: This is an external email and may be malicious. Please take care when clicking links or opening attachments.

Kurt,
It was great to meet with you, Justin, Dave, and Melisa. I wanted to recap what we discussed in this email, so please feel free to reply with any changes or questions.

Takeaways:

1. Paul met with the road and bridge department and gave a full general safety plan overview with signed acknowledgements and Vehicle use policies. Bryana will email Beth a PDF copy to distribute to other departments. ✓
2. We discussed the addition of lighting rods to all needed areas and all the other items Bryana had suggested we discuss.
3. We discussed that the county will consider installing cattle guard bumpers on the remaining vehicle fleet in the future. ✓
4. We discussed that the county is working on a \$500,000 grant to refurbish the community building, possibly this year.
5. We discussed that you have a new John Deere 770 Grader valued at \$400,000, scheduled to be delivered in August. After it arrives, you will sell one of the older graders and keep us posted. ✓
6. We discussed that the county entered into a contract with Moberly Jail for all overnight prisoners. The county does not house anyone in jail, except if they are brought to town for court and kept in the cell for holding while awaiting trial on the same day. There are no longer any overnight stays. This will allow us to market with EMC and Travelers in the coming renewal year. ✓
7. We discussed that you would like to look into the health plan as soon as possible, or at least discuss it with Cameron when he returns. ✓

Thank you and I will be out in a few months to start working on the marketing effort.
